the famous gold camp of Tonopah, ev., and nearly every new strike rereded comes from properties other
an those belonging to the original

G. A. Duncan Has Secured a Valucked by capital and rnining men of

that wonderful camp.

One of the latest companies to attract tention is that of the Tonopah & alifornia Gold Mining company, np, rich as it is in all the developed nes. It lies directly south of and no great distance from the famous n that the latter produced some ing like \$6,000,000 in six months, it is thard to believe that the new comany's territory will not be long in be classed among the other big mines the district, particularly as it is an f the developed mines all have a ortherly and southerly trend. After rounding up and doing a great

eal of development work on the prop-rties, C. L. Hanson and his associates nally started to sink a double-comartment shaft and organize a com any to carry on the development ork which he is more than confident ill result in opening another bonanza to date not a share of the Tonopah California treasury stock has been laced on the market, but yesterday ice President Hanson decided that a ranch office should be maintained in his city and to that end he arranged ith the firm of Hudson Sons & Co., well known brokers, to supply any mation desired concerning the new

ling maps and other data, As illustrative of what may be ex-ected from the opening of the new ompany's ground, Mr. Hanson stated esterday that one sterday that one year ago the Fracon company's stock went begging at 5c a share. When the shaft reached depth of 227 feet ore was struck and he price of the stock jumped to \$1.90. A few days since another strike was recorded and now it is impossible to ouch Fraction shares under \$3.

n the claim was bonded one year with just \$2.50 in his pockets, he was lered little better than a fool to ry and do anything with the ground. He finally persuaded friends to give ilm money enough to get to Philadel-hia, where he finally ran on to men with faith enough to let him have \$10,000 with which to de elop the prop-

"That man is now worth several ndreds of thousands of dollars," said Mr. Hanson, "and many more fortunes are held out in the camp to men with nerve enough to invest in new enter-

FROM THE NEW YORK.

New Shaft Down Forty Feet-Water Supply Secured.

Manager R. G. Wilson of the New ork Bonanza returned from a two ays' trip to the property Friday night, nore than pleased with the headway being made in the new shaft by Superintendent Mike Sammon. The first eleven days saw the bore completed to a depth of forty feet and now that has been installed to serve as a hoist until the steam plant can be gotten onto the ground, Manager Wilson says he is assured that the hole fill go down at the rate of five sets or over twenty-five feet, a

ranged for a water supply and yesterhe was securing bids for the 1,400 At the same time the merits of the various hoisting ma-chinery were being looked into and it is more than probable that tomorrow will see the contract for the plant While at camp, Mr. Wilson made an

inspection of the Park City Superior company's ground. He reports that is now in a distance of porphyritic-lime, heavily impregnated with iron pyrites, and while the manthat the coveted point had been reached

The ground is so highly mineralized now," said Mr. Wilson, "that it appears certain that a mine will be developed." FRANKLIN IN GOLD MOUNTAIN.

Believed in Camp That He Is Landing Something Good.

Richfield, Oct. 4.-Dr. P. A. H. Franklin has just completed a personal examination of mining properties in the Marysvale district, and it is rumored that he contemplates getting hold of a group in the neighborhood of the L. & N. properties. His visit has caused a great deal of speculation at Marysvale

years in Utah, says the doctor's interthere, and that his energy put into a

there, and that his energy put into a camp will mean some very important developments soon.

The owners of the L. & N. properties are highly pleased with the recent developments in their claims. Several good ore veins have been found containing flattering values. A shaft has been sunk down 100 feet and a tunnel will now be run a distance of 300 feet to tap the main ore body. Two shifts.

SILVER BELL REPORT.

Annual Meeting Held, Directors Chosen and Condition Shown. At the annual meeting of the Silver cell Mining company, which was held in this city yesterday, reports were submitted and approved, after which a board of directors to serve for the coming year was elected as follows: N. W. Sonnedecker, Anton Pederson, Martin Christopherson, Oscar A. Ryd-vall and P. W. Madsen, the latter be-ing the only new member of the board. eviously constituted.

as previously constituted.

During the next day or two, the new directors will file their bonds and elect officers. The amount of development done during the year on the company's property amounted to fell the company's property amounted to 591 feet—116 feet of sinking and 475 feet of tunneling and drifting. At the present time considerable nice ore is coming from the workings, the treasury is not empty, by any means, and the coming year is expected to place the mine on a paying

ORE IN WOLVERINE FISSURE. Every Foot Driven Toward Contact Shows an Improvement.

verine yesterday, Morris L. Effinger said the new compressor plant was working like a charm and that splendid eadway was now being made in the unnel which is following the recently ncountered fissure to a connection

More ore is daily making its appearance and there now seems to be no reason to expect other than that a good body of it will make its appearance deal of interest is now centered in what the company is doing.

able Property Near Lead City, ing man, has just returned from an extended trip into the mining districts of South Dakota and reports all kinds of activity in those diggings. Mr. Duncan succeeded in landing a fine property adjoining the famous Spearfish mine, about ten miles out of Lead, where, he says, there is an immense showing of \$5 gold ore.

He reports that great miles are now.

He reports that great mills are now being erected in the various camps at being erected in the various camps at-a rate that will make South Dakota world-famous as a gold producer in the years to come. Mr. Duncan ex-pects to see the property he has se-cured develop into just as big a bo-nanza as is the Spearfish, which is owned and operated by Colorado tal-ent.

ORE IN THE RECIPROCITY.

tablished fact that the main ledges Face of New Tunnel Gives Indications of Solid Ore Body Soon.

Very encouraging reports come from the property of the Reciprocity Mining company in Beaver county. The devel-opment work is being done by a tunnel which is now in to a depth of forty feet. A well defined vein over six feet wide shows mineral all the way across the face of the tnunet.

One of the directors who has just ndications are good for breaking into pay ore very soon. Assays twelve ounces silver, 11½ per cent lead, 60 cents in gold, with some copper.

Wyoming Iron Mines.

(Special to The Herald.) Cheyenne, Wyo., Oct. 4.—About Nov. 1 the output of the fron mines at Sunrise, this county, now being operated by the Colorado Fuel & Iron company, will be increased to 2,000 tons per day. The Colorado & Southern is now making arrangements to handle the in-creased output between Hartville Junction and Cheyenne.

Ore and bullion settlements in this ity during the past week, as reported y McCornick & Co., amounted to \$451,-

Personal Mention.

The condition of Patrol Driver Marcena Cannon was about the same last night and small hopes for his recovery are en-tertained.

Mrs. S. Squire, from Butte, Mont., who was operated on three weeks ago for hernia by Dr. Viko, has completely re-covered and left for her home yesterday. Major R. W. Young and Mosiah Evans, nanager of the Bear River Water com-bany, will go to Colorado Springs as rep-resentatives of that company to attend

the Irrigation congress.

W. R. Kivett, of the wholesale lumber firm of Shaw & Kivett, Boise, has been the guest of the Kenyon for several days past. He reports business good throughout the territory in which they do business—Idaho, Utah, Wyoming, Nebraska and Colorado. In fact, he never complains of hard times and low prices. He says Boise is on its usual upgrade tendency, with many improvements and many handsome and substantial buildings going up. The government building has reached the second story, and will add very much to Boise's postoffice and other federal office conveniences.

Our Miller, Warburton and Denney fall Derbies represent the best products and latest ideas of the makers, all \$5.00. BROWN, TERRY & WOODRUFF CO., 166 Main Street.

New Scientific Treatment Kills Dandruff Germs and Makes Hair Soft.

ruff Germs and Makes Hair Soft.

It is an accepted fact, a proven fact, that dandruff is a germ disease; and it is also a demonstrated fact that Newbro's Herpicide kills the dandruff germ. Without dandruff falling hair will stop, and thin hair will thicken. Herpicide not only kills the dandruff germ, but it also makes hair as soft as silk. It is the most delightful hair dressing made. It cleaness the scalp from dandruff and keeps it clean and healthy. Itching and irritation are instantly relieved and permanently cured. At all druggists. There's nothing "just as good." Take no substitute. Ask for "Herpicide." Send 10 cents in stamps for sample. The Herpicide Co., 40 Jefferson Ave., Detroit, Mich.

DOWN WENT THE STOCK MARKET

day, which resulted in last prices at a level from one to three points lower than last night for most of the prominent active stocks. The failure of the nent active stocks. The failure of the per cent, and the new 4s declined 1/4 per cent, as compared with last week's per cent, as compared with last week's coal conference at Washington to effect a settlement prevented the recov-He of the currency had overruled the de-

impelling the action of the clearing house, the operators in stocks jumped to the conclusion that for stock market purposes the position of the New York banks is to be regarded as though cretary Shaw's ruling was not in rce. The fact remains that the secretary's permissive latitude upon the banks is available in case of a determination by the clearing house to change its decision or to relax its rule at its own discretion. The marked strength of foreign ex-

change as a result of the week's easy money market and the shutting off of any hope of gold imports or even who some apprehension of possible demand for gold exports probably influenced the clearing house authorities. The imperial bank of Germany followed imports of England any hope of gold imports or even with the example of the Bank of England and advanced its discount rate 1 per cent today. The London Statist makes the point that political uneasiness in France is inducing the withdrawals of savings banks deposits and aggravat-ing the pressure for money leading to withdrawals of French credits placed with foreigners.

The Week's Operations. The banking conditions had become such at the opening of the week that a considerable loan contraction was imperative and loans placed in the stock market were called in such large volume as to run the call loan rate up to 35 per cent and precipitate a crisis in the stock market. Monday evening the market closed in a state of demoralization and there was grave fear that a panic would ensue on Tues-day. But the next morning the an-nouncement had been made of drastic measures of relief of the money situation offered by Secretary of the Treas-ury Shaw, and there was a convulsive rebound in prices of stocks which rath er more than wiped out the semi-panic decline of Monday. The nervousness and excitement of the trading de-creased from day to day until the Yampa came in from Bingham yesterday to remain over Sunday.

The Taylor & Brunton sampler was yesterday in receipt of six cars of ore yesterday in receipt of or six cars of ore tected by warm Underwear. We have the stilled down into dullness market settled down into dullness towards the end of the week. The level of prices had reached about that of last week's closing and was higher that your service.

So much for the market effect of the steps taken by the secretary of the treasury. The effect on the money market was equally marked, but not so prompt. The extreme stringency of the market was relieved and stocks put to the forced liquidation in the stock market, but rates continued high stock market, but rates continued high liquidations. The conviction liquidation in the stock market, but rates continued high stock market, but rates continued high liquidations. The conviction liquidation in the stock market, but rates continued high liquidation in the stock market, but rates continued high liquidation in the stock market, but rates continued high liquidation in the stock market, but rates continued high liquidation in the stock market, but rates continued high liquidation in the stock market, but rates continued high liquidation in the stock market, but rates continued high liquidation in the stock market, but rates continued high liquidation in the stock market, but rates continued high liquidation in the stock market, but rates continued high liquidation in the stock market, but rates continued high liquidation in the stock market, but rates continued high liquidation in the stock market, but rates continued high liquidation in the stock market, but rates continued high liquidation in the stock market was relieved and stocks put to the forced liquidation in the stock market but rates continued high liquidation in the stock market but rates continued high liquidation in the stock market but rates continued high liquidation in the stock market but rates continued high liquidation in the stock market but rates continued high liquidation in the stock market but rates continued high liquidation in the stock market but rates continued high liquidation in the stock market but rates continued high liquidation in the stock market but rates continued high liquidation in the stock market but rates continued high liquidation in the stock market but rates continued high liquidation in the stock market but rates continu in some cases. in all departments. The conviction emerged that high money rates are likely to be maintained for the remainder of the year. It is felt that a of 4.12½. prodigal replacement of the relief fund in stock exchange loans would endan-ger the situation again, and the policy of bankers and large financial powers has been enough to discourage any

Had Bad Effect.

September Imports.

Our imports for September were of record proportions. The probability of further imports of gold beyond an expected arrival of \$4,000,000 at San Francisco next week, is not counted upon-risco next week, is not counted upon. The careful husbanding of, bank resources is believed to be imperative to conserve the safety of the markets for the present. It is very notable, however, that confidence in the prosperity of general conditions is unimpaired. Stocks were not sold willingly, even when money rates were highest and only the exigencles upon the banks themselves sufficed to force liquidation. The determination is still strongly manifest to keep all the reserves that any left of mone to three points lower. The closed offered at 3½ per cent.
